EDUCATION

+2

Capital College and Research Center / Kathmandu / January, 2020 - December, 2022

Bachelor of Computer Engineering

Institute of Engineering(IOE), TU / Dharan / January, 2023 - Present

SKILLS

- Python - Expert
- C,C++ - Experienced
- Numpy, Pandas, Matplotlib, Seaborn, Sklearn - Experienced
- Git, Github - Experienced
- FastApi, React, Tailwind, Streamlit, Flask - Skillful

Rabin Poudel

EXPERIENCE

Public Relation Manager-Team

Association of Computer Engineering Students (ACES),IOE / Dharan / January, 2024 - January, 2025

Worked with driven minds, honed leadership and teamwork skills, and gained hands-on experience in events management and mentorship at ACES.

PROJECTS

Regression ML Projects

In Retail Sales Forecasting, analyzed time series and seasonal trends. In House Price Prediction, explored location-based price variations. Both projects enhanced my ability to analyze both bulk and tiny details, while mastering EDA, preprocessing, and exploring a wide range of topics, gaining insights into the application of linear regression and other machine learning algorithms.

Olympics Data Analysis Web-App

Employed data wrangling and visualization to construct a data-driven narrative of Olympic trends, detailing overall, national, sport-specific, and individual athlete performance through streamlined masking techniques.

Web Scraping

Mastered techniques in web scraping and API integration for data collection when data was not readily available. Scraped job-related data from AmbitionBox using BeautifulSoup to extract and filter companies based on specific criteria. Retrieved movie data from IMDb via an API, enhancing expertise in structured data extraction from multiple sources.

Ecommerce Store- React, FastApi, Tailwind

Created APIs with FastAPI to implement various backend functionalities, seamlessly integrated with React. Gained proficiency in React's component-based architecture and developed a store with multiple categories. Deployed the project on Render and Vercel, exploring API integration and end-to-end project development.
